***Response to Arguments***

Applicant's arguments concerning the Strecker reference filed April 17, 2006 have been fully considered and are persuasive. The previous rejection has been withdrawn.

Applicant's arguments with respect to the threshold value disclosed in the Quigley reference have been considered but are moot in view of the persuasive arguments concerning the Quigley and Strecker combination.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, last three lines, a quality measured above a high quality threshold is reported a higher priority. However, in the specification, page 6, line 22 through page 7, line 1, only the qualities measured below a low quality threshold are reported at a higher priority.

***Allowable Subject Matter***

Claims 18-25 are allowed.

Claims 1-16 would be allowable if the above 35 USC 112 rejection is overcome.
